

Improve your research skills and get visible to the scientific community with Elsevier

Free online training schedule for institutions from Lithuania:

13 September 2022

ScienceDirect, a didactic approach for librarians and academics

11:00 EEST

Find Learn how to use the ScienceDirect platform to support the teaching process and help your students and library patrons gain knowledge.

Learn about ideas for how to use ScienceDirect, the platform's functionalities, and the full-text options for library and university classes. Find inspiration for your work as a teacher, trainer, librarian and get a handful of tips and best practices. Enrich your classes with interesting content you can find in scientific journals, ebooks and other materials published by Elsevier. Use the electronic resources to work with your audience at different stages of learning, from undergraduates to PhD students, and up to supporting more experienced researchers.

14 September 2022

Library Trends: Information literacy

11:00 EEST

Join us for a discussion in which librarians will share their experiences in conducting information literacy classes.

During the event we will discuss the problems of library didactics, the challenges and issues of conducting library education activities at the university, we will look for good practices from the real life of librarian-trainers. The purpose of the discussion is to share experiences from different institutions and discuss together how to cope in a time of constant change, working in hybrid or remote mode, in the so-called new normal.

Panelists: Dr Ieva Ceseviciute, Library of the Kaunas University of Technology, Head of Research Services
Gita Rozenberga, Library of the University of Latvia, Collection Employment and Development Department, Chief librarian
